NEW AND USED TRUCK SALES • SERVICE • PARTS • LEASING • FINANCING

GET MORE TRUCKS SAVE MORE MONEY!

Want to get more for your money? At Truck Country, we've come up with a way for your County Highway Department to enhance its cash flow, and still replace aged equipment, lower maintenance costs, and get the most from your budget.

Here's how it works:

Buy a new municipal truck (plow, dump truck, fire truck) and take advantage of lease financing. This allows you to spread the cost of new equipment over several fiscal periods, stretching tax dollars. Trucks purchased at today's prices can be budgeted in less valuable future dollars over the life of the lease, and will be paid for by both present and future tax payers.

We can show you how to turn your annual equipment budget into the number of additions or replacements your department really needs to do the job right!

Please add us to your bid list and we will update you on lease financing plans and any current factory incentives every time you request a bid from us.

Call us today and let us show you a plan that will work for you!

FAMILY OWNED SINCE 1958
